

The Extreme Writing Notebook

Dear Parents:

Please look at the list below. These are the “tab headings” for your child’s notebook. You need 12 white dividers with tabs. (Start with “special stuff”, then “syllabus” and so on.) Please help your student set up his/her notebook **before** class begins. Use may use one of the following methods in which to set up the notebook:

1. Use the list below and write on the dividers with a thin Sharpie maker. Be neat.

OR

2. Cut the tabs out from the list below and secure them to the dividers. You can use a small amount of glue or you can use tape. Just make sure that your tabs will remain secure for the entire semester.

Things to know about your notebook:

1. Keep it neat!
2. File your papers, weekly. You will be given a chance during every class to file your work. This is so your parents can easily see what you have done.
3. The work you get back in class will be labeled a certain week. For example, the work you are given on Week #3, will be labeled “Week 3”. You will place this **BEHIND** the divider that says, “Week 3”
